The Review is read and appreciated by that large body of people who buy four-fifths of the goods sold in High Point---the laboring people

**\$900.00 In Cash Given Away In One Prize in This Campaign**

**GET YOUR SHARE FREE**

Send Your Name to The Review Office Today, It Costs Nothing and You May as Well Get Your Part of the Good Things Given Away. Start Today and Win.

The Review's contest is moving and this week shows the first vote for the candidates. Few as yet evidence more than passing interest however. Many of the first nominees have been struck from the list but their places are being taken by those who realize that a splendid opportunity is offered through this contest to get a FINE BIG AUTO-MOBILE FREE or to capture a reward of NINE HUNDRED DOLLARS IN GOLD for obtaining the greatest number of free votes during the campaign.

**A FINE BUILDING LOT.**  
The second prize offered is a building lot located in Roland Park High Point, N. C. This property is conceded to be directly in line of the fastest development in the city. The finest of homes are rising rapidly all over the property and in the natural course of growth and demand the increase in value of all property in this locality will be most satisfactory to the owners. The Review believes that ultimately the winner of this splendid lot will realize enormously upon it. It will cost him or her nothing and in the end will represent more solid value than any award ever previously given by any weekly paper in the state.

**OTHER AWARDS.**  
There are many other very valuable prizes from which the candidates in this contest may choose for votes. Among so many you can surely find just what you want. Everything is free and a little effort in the search for free votes will return perhaps a very great profit. If your name does not yet appear in the vote column as a nominee send it in at once. You are bound to profit to the extent of a prize or a cash commission upon all collections made personally by you if you remain an active contestant throughout the contest.

If your name has been sent in then you may be sure that your chances are excellent, if this were not so your name would not have appeared. Many of your friends are already watching your name and expect to see you take it right to the top of the list soon. Your banner is in the field, do not let it lag. Let all your friends know that you are in the race to win and you will be surprised at what you can do.

For standing of contestants, and rules of contest, etc. See last page.

**THE PRIZES--AUTOMOBILES--ETC.--OPTIONS.**  
The awards to be distributed are indeed worth consideration as, for the highest score made by any candidate during the contest, a beautiful Studebaker Four automobile, costing \$1,050, at factory or \$900.00 in cash, or should the lucky candidate decide upon a cheaper car the difference between the price of the cheaper car selected and the \$900.00 cash, will be cheerfully given in money to the candidate who obtains the highest score.

For second place in number of votes cast a fine building lot will be given free, location to be announced later.

For third highest score a beautiful solitaire diamond valued at \$100.00 will be given.  
For fourth highest score, a \$100.00

### CITY AND OTHERS ALSO.

In Monday's issue of the Enterprise an article called attention to placing the wires of the North State Telephone Company under ground but the writer failed to note that the North Carolina Public Service Company also adorn the Main thoroughfare and are just essential to place under ground as the Home Company, owned by home people and selling the people of High Point telephone service at cost, or a saving over the rate that should be charged for the same number of phones of \$21,000 a year. Then again the wires of the city are on the poles also and they of course will have to go underground at the same time, yet nothing was said about these either. Is it fair to make a distinction? We trust that the Enterprise did not so intend. The modern cable with all its wires, and surely is not a sore spot as much as scores of wires strung here and there and which present the most unsightly scene of all.

### THE NEW TELEPHONE SYSTEM.

Which we are now installing possesses the desirable features of the Automatic System, but does not require the subscriber to manipulate a dial of figures. It possesses the desirable features of the Antomannual System but is much quicker. It retains the good points in our present Manual System but adds a number of improved features,--some of which are as follows:  
Automatic LISTENING and CUT OFF of operator SECRET Service.  
Automatic MACHINE RINGING giving nine seconds interval.  
Automatic INDICATION in calling party's ear that his party is being rung.  
Automatic PREVENTION from ringing in on busy line or in one's ear.  
Automatic and Instantaneous RECALL.  
Automatic Peg Count of Calls Etc.

Part of this system is now in operation but it will require some months yet to complete it.

Yours for the best service.

Mrs. Thompson, accused of Firing Hotel, Discharged.

Greensboro, July, 20.--Mrs. Mabel Thompson, charged with attempt to burn on July 10, the Public Service Company building, formally the Benbow Hotel, was this afternoon discharged by Acting Police Judge Swift, rather to the surprise of those who have followed the case. The fire was quickly extinguished. O. A. Starbuck, connected with the internal revenue headquarters at Richmond, father of the woman was here for the trial.

### THE FURNITURE EXPOSITION

Quite a number of buyers have visited this city the past seven days, since the beginning of the mid-summer exposition and more are coming tomorrow and Saturday, the closing days. The furniture expositions are getting better each time and the success of same is practically assured. It takes time to bring the large crowds here but they will eventually come, because High Point is the logical furniture center for the Southern buyer especially, and it does the buyer and eventually the trade good to come to the furniture center once a year.

The furniture exposition building should be built at once, it will do more toward creating interest and getting the buyers here than anything else, the fact that High Point has an exposition building will show that we are in earnest, that it is a permanent fixture and that is what is needed just now. Let us build it.

### TO OUR SUBSCRIBERS.

We have turned over all subscription accounts to the association of which we are members and you will receive a notice from them for settlement. These accounts are audited every two years and the delinquents placed in the hands of this well known Association. It is only a business proposition and no discount of your honesty or integrity is intended. Some of our subscribers have been owing us for a long time and repeated notification has failed to get them to pay up. Others who will get a notice, not so long, but in order to get a "clean sheet" we have included all in arrears for as much as one year as we expect to adopt the paid in advance plan soon and stick to it. So please look at the matter in the right light. This association deals very nicely with the people if they deal nicely with it. And it is in a position to furnish reference "good or bad" on this or that person or this or that concern and it is good business policy to get straight with them at your early convenience.
